

Hoover Bay Road Association

Update:

September 10th, 2011

Hi everyone! Hope you all had a good summer despite the bugs and the high, cold water. We wanted to let you all know what has been happening concerning the grading of the road. In July Dave Keely of Forestry contacted us and said that Barry Funk was grading the road so we arranged for him to continue on to the taxiway for our group. After about 3 weeks we contacted him again and he said he was unable to do it. We contacted Forestry again and Dave said that he was trying to get a replacement and would let us know. A week or so later he said he was getting South Cariboo Enterprises to do it so we arranged for them to do our section. When they graded Forestry's section at the end of August they decided that their grader was too small for the job (as it couldn't touch quite a bit of Forestry's section) and told us that they couldn't continue from there to the taxiway. We have contacted another grading company and are waiting for them to get back to us.

I have contacted Pam Theodore at the Canim Lake Band to find out if we could cut any trees on the band section of road. If we want to do this we have to apply for a permit from the Band, pretty much the same as with Forestry, requiring us to be a legal assoc. and have liability insurance. So that is not going to happen.

Concerning plowing in the winter, we are looking into the possibility that a contractor could get a works permit from Forestry and already having the required liability insurance, be able to plow the road for us, depending of course if there is enough money.

We have heard nothing about the repairs to the bridge. Attached is a list of the people that have paid, but I know of a few people that are still intending to pay so we will send out a official paid list after Thanksgiving. Payments usually dribble in until then. We'll keep you posted.

Steve & Laurie Ross
